

Hospital Treatment Technician- Full Time Position

Company Description

Since opening its doors in 1986, the Mid-Atlantic Equine Medical Center (MAEMC) has developed an enviable reputation as one of the premier equine veterinary hospitals in the country. Over the years, our staff has grown to over 40 dedicated individuals, including board certified specialists in the fields of surgery, internal medicine, sports medicine & rehabilitation, and cardiology. In addition to the hospital clinicians, we also have a field service department, whose veterinarians work closely with the specialists as a team, providing quality care at home. The team that has been put in place allows the hospital to provide exceptional care to the patient, 24 hours a day, seven days a week. Perhaps more than any of our credentials is our doctors' commitment to resolve equine health issues and patiently and effectively communicate with horse owners and professionals.

Job Overview

The Hospital Treatment Technician is responsible for providing equine care and hospital facility maintenance in a variety of situations. Responsibilities include, but are not limited to, providing patient treatments, maintaining and restocking barns and exam rooms, and assisting with patient exams. The Hospital Treatment Technician will report to the Hospital Technician Supervisor.

Responsibilities

- Provide treatments for hospital cases, preparing and administering medications, performing physical exams, placing catheters, running fluids, and assisting with diagnostics.
- Assist veterinarians with in/out patient exams, including joint injections, lameness exams which consist of handling, lunging, and jogging of horses, pre-purchase examinations, diagnostic imaging, and surgical procedures, according to level of training.
- Stock barns with necessary supplies, including feed, hay, shavings
- Maintain barns and exam rooms by ensuring all are neat and tidy
- Provide admittance and discharge assistance to all owners and shippers
- Record treatments in medical records and input billing.
- Assist with all emergency admissions, as needed.
- Additional responsibilities as needed.

Qualifications

- Minimum one year working as a technician in an equine hospital or equivalent experience, preferred.
- Exceptional horse-horse handling skills, required.
- Strong communication skills with the ability to explain complex concepts.

- Team oriented and hard working.
- Good time management and multitasking skills.
- Ability to work independently and effectively under stressful conditions.
- Confident and capable of handling patient emergency situations.

Special Factors

Hours are Monday-Friday between the hours of 7AM – 5 PM. Weekly hours will be approximately 40 hours. Approximately one night on call each week. Benefits include hourly salary commensurate with experience, 401K, Health Insurance, and discounted veterinary services and products.
