

Hospital Technician Assistant- FT/PT

Company Description

Since opening its doors in 1986, the Mid-Atlantic Equine Medical Center (MAEMC) has developed an enviable reputation as one of the premier equine veterinary hospitals in the country. Over the years, our staff has grown to over 40 dedicated individuals, including board-certified specialists in the fields of surgery, internal medicine, sports medicine & rehabilitation, and cardiology. In addition to the hospital clinicians, we also have a field service department, whose veterinarians work closely with the specialists as a team, providing quality care at home. The team that has been put in place allows the hospital to provide exceptional care to the patient, 24 hours a day, seven days a week. Perhaps more than any of our credentials is our doctors' commitment to resolve equine health issues and patiently and effectively communicate with horse owners and professionals.

Job Overview

The technician assistant is responsible for assisting treatment technicians and senior clinicians in a variety of situations. Responsibilities include, but are not limited to, maintaining and restocking barns, exam rooms and assisting with patient exams.
